

## SUMMARY OF ANNEX 6: LEARNING AGREEMENT REGULATION

Universitas Pendidikan Indonesia has established a Learning Agreement mechanism through the Study Plan Form system, which is implemented systematically and documented via the Academic Information System. This regulation ensures that students prepare and approve their semester study plans in coordination with their academic advisors, taking into account course prerequisites, the maximum credit load, and the intended learning outcomes of the study program.

The following are the pieces of evidence provided by each study program in this cluster:

No	Study Program	Level	Study Plan Form Evidence	Academic Advisor Supervision Capture
1	Biology Education	S-2 (Master)	<a href="#">View Study Plan</a>	<a href="#">View Capture</a>
